STATE OF CALIFORNIA

Energy Resources Conservation And Development Commission

2013 Building Energy Efficiency Standards, California Code of Regulations, Title 24, Parts 1 and 6

Docket No. 12-BSTD-01 Resolution No. 14-0218-03

RESOLUTION OF THE ENERGY COMMISSION APPROVING ENERGYPRO VERSION 6.1 RESIDENTIAL COMPLIANCE SOFTWARE

RESOLUTION: California Energy Commission approval of EnergyPro Version 6.1 as an alternative calculation method for demonstrating performance compliance with the residential provisions of the 2013 Building Energy Efficiency Standards, California Code of Regulations, Title 24, Part 6, and associated administrative regulations in Part 1, Chapter 10 (Standards), and rescinding approval of EnergyPro Version 6.0 as an approved alternative calculation method for demonstrating performance compliance with the residential provisions of the 2013 Standards.

WHEREAS, the Warren-Alquist State Energy Resources Conservation and Development Act, Public Resources Code sections 25000 et seq., 25402.1, subd. (b), requires the Energy Commission to, among other things, establish a process for certifying calculation methods for demonstrating compliance with its building energy efficiency standards; and

WHEREAS, on December 11, 2013, the Energy Commission approved EnergyPro 6.0 as an alternative calculation method for demonstrating performance compliance with the residential provisions of the 2013 Standards, under California Code of Regulations, Title 24, Part 1, Chapter 10, sections 10-109 and 10-110; and

WHEREAS, EnergyPro Version 6.0 has been revised as reflected in Version 6.1 to incorporate programming for residential additions and alterations; and

WHEREAS, as allowed by the 2013 Standards, an application has been submitted to approve EnergyPro Version 6.1 as an alternative calculation method for demonstrating performance compliance with the residential provisions of the Standards; and

WHEREAS, staff of the Energy Commission has reviewed the application and tested EnergyPro Version 6.1, to ensure it meets the requirements, specifications, and criteria set forth in the Residential Alternative Calculation Method Approval Manual, CEC-400-2012-007-CMF-REV (May 2012);

THEREFORE, the Energy Commission has considered the application and approves EnergyPro Version 6.1 as an alternative calculation method for demonstrating performance compliance with the residential provisions of the 2013 Standards, and rescinds its approval of EnergyPro Version 6.0 as an approved alternative calculation method for demonstrating performance compliance with the residential provisions of the 2013 Standards.¹

The Energy Commission directs the Executive Director to take, on behalf of the Energy Commission, all actions reasonably necessary to implement this resolution, including but not limited to posting information on obtaining EnergyPro Version 6.1 on the Energy Commission's publicly-accessible internet web site.

Date: February 18, 2014

CERTIFICATION

The undersigned Secretariat to the Commission does hereby certify that the foregoing is a full, true, and correct copy of a Resolution duly and regularly adopted at a meeting of the California Energy Commission held on February 18, 2014.
